

Few of the farmers in the country are aware of the depth of gratitude

Previous to 1783, there were very few, and those of such an inferior order, that they were not worth the trouble of training, and to submit to the company with horses to work upon the road or farm. Consequently, there were no jacks, and no disposition to increase the stock; but Washington was anxious to have the introduction of mules generally among Southern planters would prove to them, a great blessing, as they are less liable to disease and longer lived, and work upon shorter feed, and are more obedient servants than horses, and are more hardy than horses.

As soon as it became known abroad that the illustrious Washington desired to stock his Mount Vernon estate with mules, he was immediately supplied with a jack and two jennies from the royal

black and two jennies from the island of Malta. The first was a gray color, sixteen hands high, heavily made, and of a sluggish nature. He was named the Osage Gift. The other was called the Knight of the Sun, and was a bay color, sixteen hands high, and of a more active and powerful nature, even to ferocity. The two different sets of animals gave him the most favorable opportunity of making his improvement by crossbreeding, and the result, which was the favorite command, because he partook of the best points in both the originals. The first was the best of the breed, and he was the jack, even taking those from his male coach for that purpose, and thus produced such superb mares, that the name of the Osage Gift was soon quite common. This was the origin of the improved mares of the United States. There are now some Knight of Malta and Royal Gift to be found in Virginia and the great benefits arising from

HOUSEHOLD DUTIES.—Without adding you to become domestic drudges, your ladies, we earnestly recommend your consideration the practice of household duties. One of the most important duties of a woman is that of the housewife. It is the lack of knowledge on the part of wives of the duties of housekeeping. In these days there are many who are so busy with the piano to one who can make a good loaf of bread. Yet a husband has so much of the animal in his nature that he does not care for the bread his wife does—so long as his appetite is unopposed—to listen to the music of the gramophone. Heavy bread has made heavy men. The man who has a good appetite, a yapsella and its herd of accompanying arguments. Girls who desire that their husbands should be amiable and kind, should be good cooks. The man who is not a live at home. Or, if he has to

is an eating house; but when he is married, and goes to house-keeping, his wife assumes the function of his mother, and he is obliged to go to the market for her, if she has been educated to know what a good table is. Those who are entirely dependent upon hired cooks make a very good table, but a cook who somewhat performs a very important part in the economy of humanity, and wives who are forgetful of this make a serious error. The husband is deceived by keeping him well fed; and the true dignity and usefulness of the housewife is stored up for her latter days, when she is no longer able to cook. Unfortunately, too many ladies bestow far more time and attention upon the latter than upon the former.

WELL SAID.—Will the Eastern charlatans never let up? During the past week, I have received no less than half a dozen invitations to advertise out-and-out catch-

These so-called "voice purveyors," dealers in publications, together with lottery schemes, etc., until we have been able to deal with them on their own terms, with their slight difference for all, we do not publish trash, and we do not publish advertisements in our columns. We try to let the community know that we are living for the benefit we will not injure it, for money or any other consideration; and we make the note under our terms: "We do not publish anything for one who can understand English—and we mean it in its fullest sense. We want to do a legitimate business—failing in the we do not do business at all."—*América Encanta.*

ADULTERATION OF FOOD.—The Chicago *Adulteration Tribune* has been examining into food adulterations in that city. The special file selected has been an analysis of the groceries in that city. The grocery stores in that city. Specimens have been brought from

course of trade, of sugar, cotton, tea, rice, and other commodities, and the people, the owners, etc., and they have been subjected to analytical tests by a skillful chemist. The result shows that every barrel of sugar is adulterated to a greater or less degree.

HOPSE.—A strong mind always hopes. Hopse knows the mutability of human affairs, and he lights a candle, because he may change the whole course of events. Such a spirit, too, rests upon himself; it is not dependent on others. Hopse, at last, all should be, it has saved itself its own integrity, and worth. Hopse awakens courage, which is the abandonment of good—the giving up of the battle of life with dead nothingness. He who can implant in the human soul is the best physician.

SENSIBLE NEGROES.—The negroes of Marengo county, Alabama, have resolved that they do not desire nor ask

...ations, they are governed by the laws of nature, which cannot, even if desired, be controlled, regulated, amended or repealed by any laws enacted by man. In Lee county the colored people declare that they are unalterably opposed to any kind of legislation, State or Federal, favoring mixed schools, mixed churches, or any mixture of races, or bearing on the question of social equality.

The Yolo Democrat,
With Half-Sheet Supplement;
MAKING SIX PAGES EVERY WEEK.

WOODLAND, CAL.
Friday, Sept. 18th, 1874.

Reclamation Island.

This island is formed by the Sacramento river on the east and a large slough on the west side connecting with the river at either end. It is situated in the southeast corner of Yolo County. The island forms Reclamation District No. 108 and has been pretty effectually reclaimed; but yet the works are not considered permanent. The present season, however, as we have heretofore mentioned, first-class crops were raised on the island, while on the same class of land outside of the levee everything was drowned out by the winter and spring freshets. To make the work of reclamation perfect and permanent, the embankments are being greatly strengthened and raised to a height that will secure the island against overflow in any flood such as has occurred in the last twenty years. Fifty men are now at work, and it is expected the embankments will all be completed before the rains set in this fall. The lands of this island are very fertile, producing the heaviest crops, and having the Sacramento river at their very doors, the lucky owners always have the means of exporting their produce to market at low rates.

An instance of the increased value of the land was related to us the other day by Mr. R. F. Hester, a farmer resident on the island. Mr. Henry Welch six years ago bought 80 acres that cost him \$700, all that it was then worth, which he sold the other day for \$4,000 cash down—that is, \$50 an acre—and many think he sold too low.

These reclaimed lands are becoming noted for their richness and unequalled productive capacity, and are being sought after. An instance: A practical hop raiser recently bought 50 acres on this island for the purpose of raising hops, and for which purpose it is said there is no land or climate better adapted. We predict that it will be but a short time before every acre of Merritt Island will be worth one hundred dollars—will bring that amount readily. And when the other thousands of acres of the same class of lands in our county are brought into the same state of successful cultivation, what mines of wealth they will be to their fortunate possessors. Then will the outside world realize that Yolo County is by far the richest agricultural county in the State. She already ranks among the very first of them in her wheat and fruit productions. But in the near future we shall see her looming up in importance till we finally believe she will rank A. No. 1 in every respect as an agricultural county.

STATE MEETING.—The Christian State Meeting is now in session at Heidelberg, Sonoma County. It will close Monday next.

DEMOCRATIC.—The election in Portsmouth, New Hampshire on Monday resulted in favor of the Democrats for the first time since 1858.

THE CIRCUS.—An immense crowd attended Montgomery Queen's Circus and Menagerie on Saturday, probably paying him a thousand dollars above expenses.

AMADOR DISPATCH.—This sterling Democratic contemporary has commenced its sixteenth volume under very favorable circumstances. May it reach sixteen times sixteen.

WOODEN MILLS DROWNED.—On Tuesday morning last the Sacramento wooden mills were completely destroyed by fire—loss estimated at \$150,000; building and machinery insured for \$50,000.

THE STATE FAIR will commence at Sacramento on Monday next. Half-price tickets will be issued by the railroad company. There will doubtless be a very large attendance. It is expected that this fair will outdo all its predecessors.

DEFERRED.—A long letter from Judge Henry arrived just too late for publication in this issue. The Judge and party are enjoying themselves largely. They are by this time at Adams Springs.

DISTRICT 108.—We call attention to the letter of Hon. A. H. Rose in this issue. As this district is situated mostly in this county, 42,000 acres being in Yolo, the communication will be read with particular interest.

CHAIN-GANG.—By the Sun we learn that the town prisoners are made to work on the streets of Colusa in chain-gang. Thus they are made to at least earn their board, and at the same time serve as an example to delinquents from wrong doing. We notice that Sheriff Barney asks our county prisoners to do.

INSURANCE.—The popular indignation because so great in Louisiana at the Kellogg administration, which it is claimed is a usurpation, that the people recently arose almost on a mass and ousted the Governor and other State Officers by force. Gov. Kellogg called on the President for aid, and the latter responded by a proclamation giving five days' notice to all disorderly persons to disperse. So it seems the President is going to make much trouble in Louisiana instead of letting the people have peace and such officers as they want.

RECLAMATION DISTRICT NO. 108.

LETTER FROM HON. A. H. ROSE.

GRAND ISLAND, Sept. 10th, 1874.

EDITOR YOLO DEMOCRAT:—In the Sacramento Union of July 11th there was published a synopsis of an "Information," filed the day previous in the Sixth District Court, in a case entitled "The People of the State of California, against The Sacramento Valley Reclamation Company, Reclamation District No. 108, A. H. Rose, L. A. Garbett, and Charles F. Reed, Trustees." It is charged that the Board of Supervisors of Yolo County formed District 108 without inquiry into the truth of the petition for its formation, or hearing any evidence on the subject. That on the 5th day District was formed, "that they were entitled, and without notice, elected three of their number—Rose, Garnett and Reed—Trustees, and adopted By-Laws." That these Trustees estimated the cost of reclamation in said District at \$140,000, knowing at the time that the cost would not be \$70,000, and "awarded contracts with the understanding with contractors to sell the warrants back to them for fifty per cent. of their face value." That the Commissioners of Assessment (Mr. Kelley and Goad), were appointed, who were "wrongfully and designedly influenced," said Trustees, to omit the \$70,000 assessed on the land, and said District. "That the greater part of the levee was destroyed by the high water of 1871," and that said Trustees received such damage from the cost of \$70,000, knowing that the cost would not be \$35,000, and that they secretly and fraudulently bargained with the contractors at \$70,000, and the said warrants back at 50 per cent. of their face value; that the Commissioners viewed and assessed the same in the first instance, and left out fraudulently \$35,000, and that in the months of 1872, the Trustees of District 108, under oath, falsely and fraudulently certified to the Supervisors of Yolo County, that in District 108 \$35,000 per acre had been expended on works of reclamation therein, well knowing that a lesser sum had been expended; that 100 acres embraced in said District 108 is not swamp and overflowed land and never has been."

These charges, so far as they reflect on the action of the Board of Supervisors of Yolo County, the Sacramento Valley Reclamation Company, the Trustees of Reclamation District 108 (Rose, Garnett and Reed), and the Assessors, Commissioners of Assessment (Kelley and Goad), are wholly false and without any foundation whatever in fact.

First.—District 108 was formed by the Supervisors of Yolo after a full and fair hearing of all the facts presented, and the introduction of witnesses and proofs, and the argument of counsel on both sides, and in the presence of two sessions of the Board (held on the 19th and 28th days of September, 1870) for the exclusive consideration of this subject, and after four weeks publication of notice of the time of holding the same.

Second.—Rose, Garnett and Reed were elected Trustees of said District by a majority in a vote of the land owners therein, in accordance with law, and not by the Sacramento Valley Reclamation Company alone. Reed was never elected, never had been, and never will be elected in the stock, land, or property of the Company. Garnett was not then, and has not since been interested, in any way, in its stock or property.

Third.—The only person who could be said to have been a representative of said Company, and he was as an individual land owner in the District. His majority of the Board of Supervisors of Yolo County, never have had any interest in the stock, property or transactions of the Sacramento Valley Reclamation Company.

Fourth.—When the estimate for the first work proposed was made, (Oct. 5th, 1870), the Trustees believed that the sum of \$140,000 would be required to accomplish that work; but fortunately for the land owners in the District, they succeeded in doing it for considerably less. No contracts were let that year, which in the aggregate amounted to \$180,000. Two contracts only were let: One to James M. Lemon on the 5th day of October, for the construction of a levee on the west bank of the Sacramento River, from the Landing to the Upper Sacramento Slough, a distance of thirty-eight and one-half miles, at twenty cents per cubic yard of earth placed in said levee, and one-half mile, at twenty cents per cubic yard of earth placed in the levee, payable in the warrants of the District. This was a low price, considering the character of the work, and amounted, in round numbers, to ninety-six thousand dollars. The other contract was let to W. H. Martin & Co. on the 7th day of December, for the construction of Bulkheads, etc., at certain sloughs and levees, to induce Lemon and Martin & Co. to take these contracts, the Sacramento Valley Reclamation Company agreed with them, to take the warrants of the District, and pay the face value for the work, and pay the face value for them in gold coin, which agreement was carried out, and Lemon and Martin & Co. received from the Company, in gold coin, the full face value for all the warrants issued for work done under these contracts. The statement that the Trustees of the District, by the action of them, bought the warrants or agreed to buy them, or any part of them, or in any way speculated in them, is a base falsehood.

Fifth.—The Commissioners of Assessment (Kelley and Goad), were appointed, who were "wrongfully and designedly influenced," said Trustees, to omit the \$70,000 assessed on the land, and said District. "That the greater part of the levee was destroyed by the high water of 1871," and that said Trustees received such damage from the cost of \$70,000, knowing that the cost would not be \$35,000, and that they secretly and fraudulently bargained with the contractors at \$70,000, and the said warrants back at 50 per cent. of their face value; that the Commissioners viewed and assessed the same in the first instance, and left out fraudulently \$35,000, and that in the months of 1872, the Trustees of District 108, under oath, falsely and fraudulently certified to the Supervisors of Yolo County, that in District 108 \$35,000 per acre had been expended on works of reclamation therein, well knowing that a lesser sum had been expended; that 100 acres embraced in said District 108 is not swamp and overflowed land and never has been."

These charges, so far as they reflect on the action of the Board of Supervisors of Yolo County, the Sacramento Valley Reclamation Company, the Trustees of Reclamation District 108 (Rose, Garnett and Reed), and the Assessors, Commissioners of Assessment (Kelley and Goad), are wholly false and without any foundation whatever in fact.

First.—District 108 was formed by the Supervisors of Yolo after a full and fair hearing of all the facts presented, and the introduction of witnesses and proofs, and the argument of counsel on both sides, and in the presence of two sessions of the Board (held on the 19th and 28th days of September, 1870) for the exclusive consideration of this subject, and after four weeks publication of notice of the time of holding the same.

Second.—Rose, Garnett and Reed were elected Trustees of said District by a majority in a vote of the land owners therein, in accordance with law, and not by the Sacramento Valley Reclamation Company alone. Reed was never elected, never had been, and never will be elected in the stock, land, or property of the Company. Garnett was not then, and has not since been interested, in any way, in its stock or property.

Third.—The only person who could be said to have been a representative of said Company, and he was as an individual land owner in the District. His majority of the Board of Supervisors of Yolo County, never have had any interest in the stock, property or transactions of the Sacramento Valley Reclamation Company.

Fourth.—When the estimate for the first work proposed was made, (Oct. 5th, 1870), the Trustees believed that the sum of \$140,000 would be required to accomplish that work; but fortunately for the land owners in the District, they succeeded in doing it for considerably less. Reed was never elected, never had been, and never will be elected in the stock, land, or property of the Company. Garnett was not then, and has not since been interested, in any way, in its stock or property.

Third.—The only person who could be said to have been a representative of said Company, and he was as an individual land owner in the District. His majority of the Board of Supervisors of Yolo County, never have had any interest in the stock, property or transactions of the Sacramento Valley Reclamation Company.

Fourth.—When the estimate for the first work proposed was made, (Oct. 5th, 1870), the Trustees believed that the sum of \$140,000 would be required to accomplish that work; but fortunately for the land owners in the District, they succeeded in doing it for considerably less. No contracts were let that year, which in the aggregate amounted to \$180,000. Two contracts only were let: One to James M. Lemon on the 5th day of October, for the construction of a levee on the west bank of the Sacramento River, from the Landing to the Upper Sacramento Slough, a distance of thirty-eight and one-half miles, at twenty cents per cubic yard of earth placed in said levee, and one-half mile, at twenty cents per cubic yard of earth placed in the levee, payable in the warrants of the District. This was a low price, considering the character of the work, and amounted, in round numbers, to ninety-six thousand dollars. The other contract was let to W. H. Martin & Co. on the 7th day of December, for the construction of Bulkheads, etc., at certain sloughs and levees, to induce Lemon and Martin & Co. to take these contracts, the Sacramento Valley Reclamation Company agreed with them, to take the warrants of the District, and pay the face value for the work, and pay the face value for them in gold coin, which agreement was carried out, and Lemon and Martin & Co. received from the Company, in gold coin, the full face value for all the warrants issued for work done under these contracts. The statement that the Trustees of the District, by the action of them, bought the warrants or agreed to buy them, or any part of them, or in any way speculated in them, is a base falsehood.

Fifth.—The Commissioners of Assessment (Kelley and Goad), were appointed, who were "wrongfully and designedly influenced," said Trustees, to omit the \$70,000 assessed on the land, and said District. "That the greater part of the levee was destroyed by the high water of 1871," and that said Trustees received such damage from the cost of \$70,000, knowing that the cost would not be \$35,000, and that they secretly and fraudulently bargained with the contractors at \$70,000, and the said warrants back at 50 per cent. of their face value; that the Commissioners viewed and assessed the same in the first instance, and left out fraudulently \$35,000, and that in the months of 1872, the Trustees of District 108, under oath, falsely and fraudulently certified to the Supervisors of Yolo County, that in District 108 \$35,000 per acre had been expended on works of reclamation therein, well knowing that a lesser sum had been expended; that 100 acres embraced in said District 108 is not swamp and overflowed land and never has been."

These charges, so far as they reflect on the action of the Board of Supervisors of Yolo County, the Sacramento Valley Reclamation Company, the Trustees of Reclamation District 108 (Rose, Garnett and Reed), and the Assessors, Commissioners of Assessment (Kelley and Goad), are wholly false and without any foundation whatever in fact.

First.—District 108 was formed by the Supervisors of Yolo after a full and fair hearing of all the facts presented, and the introduction of witnesses and proofs, and the argument of counsel on both sides, and in the presence of two sessions of the Board (held on the 19th and 28th days of September, 1870) for the exclusive consideration of this subject, and after four weeks publication of notice of the time of holding the same.

Second.—Rose, Garnett and Reed were elected Trustees of said District by a majority in a vote of the land owners therein, in accordance with law, and not by the Sacramento Valley Reclamation Company alone. Reed was never elected, never had been, and never will be elected in the stock, land, or property of the Company. Garnett was not then, and has not since been interested, in any way, in its stock or property.

Third.—The only person who could be said to have been a representative of said Company, and he was as an individual land owner in the District. His majority of the Board of Supervisors of Yolo County, never have had any interest in the stock, property or transactions of the Sacramento Valley Reclamation Company.

Fourth.—When the estimate for the first work proposed was made, (Oct. 5th, 1870), the Trustees believed that the sum of \$140,000 would be required to accomplish that work; but fortunately for the land owners in the District, they succeeded in doing it for considerably less. No contracts were let that year, which in the aggregate amounted to \$180,000. Two contracts only were let: One to James M. Lemon on the 5th day of October, for the construction of a levee on the west bank of the Sacramento River, from the Landing to the Upper Sacramento Slough, a distance of thirty-eight and one-half miles, at twenty cents per cubic yard of earth placed in said levee, and one-half mile, at twenty cents per cubic yard of earth placed in the levee, payable in the warrants of the District. This was a low price, considering the character of the work, and amounted, in round numbers, to ninety-six thousand dollars. The other contract was let to W. H. Martin & Co. on the 7th day of December, for the construction of Bulkheads, etc., at certain sloughs and levees, to induce Lemon and Martin & Co. to take these contracts, the Sacramento Valley Reclamation Company agreed with them, to take the warrants of the District, and pay the face value for the work, and pay the face value for them in gold coin, which agreement was carried out, and Lemon and Martin & Co. received from the Company, in gold coin, the full face value for all the warrants issued for work done under these contracts. The statement that the Trustees of the District, by the action of them, bought the warrants or agreed to buy them, or any part of them, or in any way speculated in them, is a base falsehood.

Fifth.—The Commissioners of Assessment (Kelley and Goad), were appointed, who were "wrongfully and designedly influenced," said Trustees, to omit the \$70,000 assessed on the land, and said District. "That the greater part of the levee was destroyed by the high water of 1871," and that said Trustees received such damage from the cost of \$70,000, knowing that the cost would not be \$35,000, and that they secretly and fraudulently bargained with the contractors at \$70,000, and the said warrants back at 50 per cent. of their face value; that the Commissioners viewed and assessed the same in the first instance, and left out fraudulently \$35,000, and that in the months of 1872, the Trustees of District 108, under oath, falsely and fraudulently certified to the Supervisors of Yolo County, that in District 108 \$35,000 per acre had been expended on works of reclamation therein, well knowing that a lesser sum had been expended; that 100 acres embraced in said District 108 is not swamp and overflowed land and never has been."

The Ladder of Life.
Higher—dill higher! Is it not glorious?
Step by step slowly, steadily, yet tenderly,
All things are holy, full of God's splendor,
Higher—dill higher! Who talks of falling?
The true never falls. Reach the top railing,
Fully armed with morning and even,
Like a soul winging nearer to heaven.

Proudly ascending, slowly but surely,
Ever depending on thyself purely,
Higher—dill higher! In Nature's teaching—
Ready and steady! All the top reaching,
Life is all motion; streamlet and river
On to the ocean—on, on forever!
Higher—dill higher! Through the dark portal,
Those who aspire are the victors.
Step by step slowly, steadily, yet tenderly,
All things are holy, full of God's splendor.

Undemonstrative Love.
Like crystals in a frozen fountain,
Or like the snow-capped mountain,
Or like the spark that lives and flashes
Concealed within its bed of ashes,
It is that love that never gives
A single sign by word or sign,
That it even lingers night
Or that it even lingers night
And which, how e'er its object pines
For not one instant moment shines
To light the heart that looks for love
As withering flowers that never bloom
Beside a breast with love like this
Cold and dead as a heavenly bliss!
For even on that frozen shore
Warm, quivering springs are found to pour
Radiant warmth upon the heart
To melt the frost that may be near.

General Items.
There are three Plute boys attending the public school at Silver City, Nevada.

Great improvements have been made in the Pavilion at the State Fair grounds.

The Democratic majority in the Legislature of North Carolina will be 75—a gain of 48 members.

There are three acres of land at Bodega Bay which in one season produced \$4,000 worth of cabbages.

A California lion, measuring eight feet in length, was killed on Parr's ranch, near Alameda, last week.

The State "Reform" Convention of Michigan has nominated a ticket half Democratic and half Republican.

Turns car-loads of sugar-beets are daily being taken to the beet-sugar works in Sacramento from near Davisville.

It is estimated by authority of A. Delmar that England will take 50,000,000 bushels of breadstuffs from the United States this harvest year.

Wheat mustard is so plentiful in Palermo valley that one 25-acre wheat field is estimated to average fifty pounds of mustard seed to the acre.

The British line of steamers from San Francisco to Asia has been changed, and the vessels chartered to the Pacific Mail Company.

The total product of the Comstock lode up to the present time is estimated to be somewhere in the neighborhood of \$200,000,000.

The Pennsylvania railroad claims the largest locomotive in the country. It weighs seven tons.

A. Delano, for many years a contributor to the press of California under the nom de plume of "Old Block," died at Grass Valley, on the 10th inst.

On August 3, 3,031 passengers arrived in this State by rail, and 4,644 departed by the same conveyance. Gain of population during the month 1,283.

Missouri has adopted a Constitutional Amendment providing that after 1876 no person shall be allowed to vote in that State who cannot read or write.

The Governors of the Western Territories have been notified that General Sheridan's order against expeditions to the Black Hills will be rigidly enforced.

A. B. Scott, who has been boring for coal near Lincoln, Placer county, has struck a stratum of very superior coal, which is nearly twenty feet in thickness.

A Republican Convention of all the Southern States will meet at Atlanta, Georgia, on the 12th of October. Grant and the Vice-President are to attend this convention.

The production of wine in the Southern Australia is an important branch of agricultural industry. The production last year has been estimated at 75,000 gallons.

Besides Pensacola the yellow fever has appeared at New Orleans, Glasgow, Mobile and other places in the South, and at quarantine in New York and England.

BROCKLEY, License Collector of San Francisco, has been put out of office by the Supervisors, and is now held in 10,000 bonds to answer the charge of embezzling the public money.

SPARKING of the moneys in the State Treasury, the Sacramento Union says: The government, out of which all appropriations are paid has not a dollar, but is in debt to-day over \$500,000.

P. T. BARNUM, Esq., has written to Rev. Ward Beecher, offering him \$10,000 for the business, and the lectures to be delivered by him this Fall, after the termination of the present controversy with Mr. Tilton.

On the 10th instant a man named Wm. Collins was arrested at the Bay District in San Francisco by a citizen named C. H. McCarty, who accuses him of grand larceny in Yolo county in stealing the public money.

TIMOTHY SANSBURY, formerly landlord of the American Exchange Hotel in San Francisco, has purchased the Golden Eagle, in Sacramento, for \$100,000 including the furniture. He will open it in time for the State Fair.

SUPERVISOR PEARL, of Stanislaus county, was engaged in hauling hay on his ranch, last Tuesday, when his horse fell from a high place, and he was thrown from the wagon. The wheel ran over his body, causing death in a few hours.

The Temescal Tin Mining Company and others have commenced the construction of a ditch twenty miles in length, which will take water enough from the Santa Ana river, in Los Angeles county, to irrigate about 6,000 acres.

There are now 344 students in attendance at the State Normal School, the largest number ever enrolled at any one time. This time last year there were only 175 enrolled. There are also 100 pupils in the Training Department.

GEN. BRAXTON BRIDGE has been appointed Chief Engineer of the Gulf, Colorado and Santa Fe Railway, and will, for the present, have his headquarters at Galveston, Texas. He proposes to have a corps of 100 men in the West shortly.

At Merced, September 12th, the anti-slavery folks were beaten. The anti-slavery meeting, 183, of which anti-slavery met 11. Everything was conducted in a quiet, orderly manner. None of the saloons were open during the day.

The experimental hemp field—about five acres—of the Pacific Cordage Company, near its works, is now being cut. The yield will be about 1,000 pounds to the acre of remarkably strong rope, when prepared will be worth about \$200 per ton.

A Yuba paper, summing up the crop reports from various counties, says: "Failing together the results of the world's harvest, there can be no doubt that it is one of the most liberal ever known."

James Luck's liberal donation of \$25,000, to establish an orphan asylum in the city of San Jose, has been officially recognized by the City Council of that city, which body, at its last meeting, resolved to name the institution "The Lick Orphan Asylum of San Jose."

There are said to be 800 paper mills in operation in the United States, with a capital investment of \$40,000,000 and a total production of 470,000,000. These mills give employment constantly to 30,000 people, whose earnings are footed up to \$10,000,000 annually.

The editor of the Graphic states that Monte Vreche's charges of blackmail. It is also stated that there have been some startling statements from here hitherto been published, and their character is such as necessitates some reply from Beecher.

NOW IN SAN FRANCISCO!
